SKIPPER BOWLES CONGRATULATES TOM ALTMAN ON HIS VICTORY
...as Kirk, with his wife looking over his shoulder, tallies the vote Group II totals

Altman wins election, Roberts, Kirk in runoff

Belle Glade City Commissioner Tom Altman won a landslide victory in his bid for re-election Tuesday and Commissioner Ralph Kirk hung onto just enough votes to force two-time opponent Jerry Roberts into a runoff next Tuesday.

Roberts built a huge plurality in the Group II race as he accumulated 1,058 of the 2,397 votes cast in the race. Kirk picked up 650 votes and first-time-out candidates Roe Steele and David Day drew 486 and 203 votes respectively.

In the Group I race, Altman beat E. R. "Skipper" Bowles by a score of 1,038-613. Bowles was the third of six candidates in the city election who has never run for political office before.

Roberts ran against Kirk two years ago in an election he was first reported to have won, only to find out 25 hours later he had lost. The difference was given in the way the machines were read at the time the polls had closed. Kirk picked up 300 more votes in the second reading. That was Roberts' first attempt to seek political office.

Roberts seemed somewhat pleased Tuesday night after the votes had been tallied but admitted he "would have been happier with a couple hundred more votes."

Roberts needed another 281 votes to win a majority vote and avoid the runoff. His opponents amassed a total of 1,339 votes.

Interestingly, a total of 123 voters who went into the machines failed to cast ballots in the Group II race, but 869 of those voters failed to make a choice in the Group I race between Altman and Bowles.

Including the 53 absentee ballots read off after the machines were tallied, 2,520 Belle Glade voters took part in the election, 55.3 per cent of the 4,557 registered voters in the city.

In the Altman-Bowles race the major issues

seemed to have been Bowles' criticism of the commission's hiring of former City Manager George Knoblock as a consultant and Bowles' contention the commissioners should work more closely together as opposed to Altman's view that open debate of the issues is better.

"I want to say," Altman said later, "that Skipper Bowles is very much a gentleman and he ran an outstanding race. I look forward to his help to accomplish some of the goals we both would like to see accomplished in Belle Glade."

"I'm very happy with how I did," Bowles said, "considering the fact this was my first political race. Wait'll next year," he added, indicating he will run for election again in that election.

Should Bowles decide to run next year, it would be for a borough representative seat rather than the at-large seat he attempted to dislodge Altman from. Bowles lives in the borough now represented by Aubrey Farmer.

In the Group II race, Roberts has expressed his concern with a number of social problems, including housing, recreation and water and sewer. He said he felt his youth would also be an asset by providing representation from that portion of the population.

Kirk has run a campaign based on his experience and has stressed the need for planned growth and has recognized problem areas in water and sewer, recreation and streets.

Altman will begin his second term as a city commissioner when he is sworn in at the city commission meeting taking place on or about Oct. 1, along with the winner of the runoff next Tuesday. Should Kirk win that runoff, he will begin his fourth two-year term. If Roberts wins, he will begin his first and the commission will begin its first session with two black members.

Knoblock resigns, city agrees

The Belle Glade City Commission accepted Monday night, the second resignation in three months of former City Manager George Knoblock.

Knoblock wrote his resignation in a mailgram to Mayor William Gray, terminating his agreement with the city to act as a consultant on special projects until a new city manager can be hired.

The resignation is effective immediately and upon final briefing of city personnel. Belle Glade Community Development Program director George Gartner will take over most of the projects Knoblock was handling.

"During the past year," Knoblock said the mailgram, "certain commissioners have demonstrated an interest in making progress toward addressing the more serious

problems of the city. Upon my resignation, the mayor and two of these commissioners sought to maintain

momentum through an orderly transition to another manager."

"I agreed to act as special

consultant to support their efforts," he said. "This was a personal sacrifice since this would delay my obtaining another position and greatly reduced my income."

"Regardless of my sacrifice and progress made, there are those who would make political fodder out of solemn municipal circumstances. Inaccurate information has been promoted and the consultant's value illegally discounted or concealed."

"These same forces," he said, "originally led me to re-evaluate my continued employment with the city and in my opinion have cost the city two good managers."

Knoblock's position as consultant was raised as an issue in the city commission election by two candidates, both of whom lost their

sixth term. Neither of the two candidates had held all their terms back-to-back. The turnout for the runoff was unusually heavy as the two candidates drew 500 votes, 71 more than had voted in the Group III race in the city election last week. This amounted to 62 per cent of the registered voters compared to the 52.5 per cent who voted last week.

Incumbent City Commissioners Vernita Cox and Don

O'Neal picked up all the votes cast last week for third candidate Charlie Reese and added a few more to defeat incumbent City Commissioner O'Neal Walker and regain a seat on the commission.

O'Neal polled a total of 297 votes to Walker's 203 as 62 per cent of the city's voters turned out in the runoff between the two veteran commissioners.

O'Neal has held a commission seat twice in the past and Walker was running for

Conf. to P2

CARPENTER* DEXTER* TRAMMELL AND STAPP ARE DIRECTORS
...who will take office on the Chamber of Commerce board of directors Oct. 1

Chamber to feature Commissioner Conner at awards banquet

Florida Commissioner of Agriculture Doyle Conner will be the main speaker at the Belle Glade Chamber of Commerce Annual Awards Banquet Oct. 28 according to banquet committee chairman B. Carlson White.

White announced Conner's agreement to speak Wednesday, the morning after four new board members were selected at that meeting. They are President Cecil Conley, First Vice President Wayne McKell, Second Vice President

Ed Duda and Treasurer

Mary Drennon.

The new directors are Milton Carpenter of Milton Carpenter Insurance Co., Vernon Dexter of Glades Gas Co., Dale Stapp of Florida Power & Light and Charles Trammell of Everglades Federal Savings and Loan Association.

The incoming directors replace outgoing directors Roy Burch, who is also the outgoing president, White, Louis Righman and Alvarez Sanchez.

The banquet is due to take place at Belle Glade Elks Lodge 1716 the evening of Oct. 28. White announced

he is finalizing plans for the Banquet an most of the details have been taken care of.

Besides Conner, guests will include County Judge Don Adams, outgoing County Commissioner E. W. "Bud" Weaver, last year's Man of the Year award winner, Mrs. Ruth Wedgeworth, master of ceremonies Robert C. Lee and members of chambers of commerce in adjoining communities.

As usual, the chamber will get that time present awards to the Man of the Year, the Agriculture-Industrial Man of the Year and the Lawman of the Year.

to register for general election

Voters get one last chance

Glades residents who haven't registered to vote have one last chance, according to Jackie Winchester, Palm Beach Supervisor of Elections, to become eligible to vote in the general election Nov. 2.

Mrs. Winchester said potential voters may register to vote in the general election through Saturday, the last day to register. She said a special effort will be made to attract those voters by holding the Glades Office Building open from 8:30 a.m. to 5 p.m.

Since Federal Law requires that voters register to vote for the President and Vice-President up until 30 days before the election, Mrs. Winchester said, "those persons who register between Sept. 18 and Oct. 2 will be eligible to vote on the President and Vice-President ONLY on

Nov. 2.

All voters are urged to register or have their registration reinstated prior to the Sept. 18 deadline," she continued, "so that they will be eligible to vote on all offices."

Mrs. Winchester said that all registered voters who haven't voted in the past two years should check with her office or one of the four branch offices in the county to make sure their names

haven't been removed from the rolls.

In a biannual purge required by state law, 35,000 names were removed in January. "Those persons may be reinstated while the books are open by contacting the Elections Office."

They will not be allowed to vote on election day unless they have applied for reinstatement prior to the closing of the books.

at local private schools

Junior women check eyes

Members of the Belle Glade Junior Women's Club are completing an eye testing program this week for four and five year old kindergarten, and first grade children at the area's private schools.

Students attending public schools receive the tests before the end of their first grade," according to project chairman Mrs. Shari Lohmann, "but since private schools do not provide this service, our organization has undertaken the project."

"When the Juniors first tested children, in the spring of 1975, we discovered approximately 9 per cent of those tested had problems; compared with a national average of between 3 - 5 per cent."

As explained by Mrs. Lohmann, the children are checked for three major different visual deficiencies: muscular imbalance, visual acuity being able to read an "E" chart to the 20-30 vision level, and for depth perception.

A form is filled out for each child, noting a "passing" or "failing" grade for each of the tests performed, and sent home with the child.

We hope that parents of a child who does not pass the acuity of muscular imbalance tests will take their children to an eye specialist for a professional examination," Mrs. Lohmann said.

The depth perception test is often difficult for a child of 4, 5, or 6, since the eye muscles are not fully developed at that age. If a parent is already concerned with the child's depth

into a behavior problem as well, "Mrs. Lohmann explained, "because the child becomes bored when he cannot read or see work written on the blackboard."

Training for the Juniors to perform the tests is given by local optometrist Dr. Don Leitch, who also supplies the needed testing supplies.

As a member of the Belle Glade Lions Club, Dr. Leitch was instrumental in the Lions' decision recently to

purchase a portable telebinocular machine, which would enable trained laymen to test with a high degree of accuracy for near and far sightedness as well as muscular imbalance.

The machine had not arrived in time for use during this testing schedule, but will be available through the Lions Club for any group desiring to test school age children in the future.

Mrs. Lohmann stressed the importance of parents following up on the eye tests with a professional examination. "The eyes are even more valuable than teeth; they cannot be replaced."

"Too often," she noted, "parents remember to take their children to the dentist, because of course a toothache hurts. But usually even a child is not aware that he has poor vision."

SHARIE LOHMANN CHECKS THE EYES OF 5 YEAR OLD SUTT AUSTIN
...at St. Peter's Lutheran School as part of the Junior's eye examination program

Fishing has been good on the big lake

Good fishing continued in the Belle Glade area of Lake Okechobee during the past week and with several limit

and near limit catches coming in to Slim's Fish Camp, according to Nan Corbin.

Jack Huffman and father John Huffman of Pompano Beach reported 16 bass up to 3 1/2 pounds each on Saturday morning using live bait in the grass beds. The Huffman's fished again Saturday afternoon and

brought in 10 bass to 4 pounds each this time. Jack Scott of Plantation, weighed in his 8 1/2 pound bass caught on a live shiner Saturday morning.

Russ Gilbert and Dick Moran, of West Palm Beach, reported 20 bass on Saturday with the largest going 8 pounds. These fishermen went out early and reported that all were caught before 10 a.m. using Camellian worms.

Belle Glade election

The four commissioners present at Monday night's regular meeting immediately accepted Knoblock's resignation.

The only question raised was by Commissioner Aubrey Farmer, when he asked City Finance Director Frank Anderson about Knoblock's pay. Farmer and Harris had earlier demanded a more detailed accounting of the statement. Knoblock had presented the city for his

services in July, his first month on the job.

Anderson said he had just received a bill from Knoblock for his services to the city for August and that the two bills for July and August were for \$1,074.58 and \$721.14 for a total of \$1,805.72.

Commissioners Farmer and Kenneth Anderson had objected to the July bill but neither said anything about the bills Monday, although Farmer asked Anderson to

circulate Knoblock's September bill to the commissioners.

Anderson said Knoblock had's ret presented a bill for September, and I have a feeling he might not."

Knoblock had negotiated an agreement with Palm Beach Junior College which would bring some \$50,000 cash into city coffers, had extended the life of the city solid waste landfill indefinitely and was working on gaining a temporary operating permit, along with permission for more connections, on the city sewer plant as well as negotiating a new contract between the city and Glades Correctional Institution on city sewer service with GCL.

In another action, the commission agreed to Anderson's suggestion the city advertise that the city will continue taxing property in the city at the rate of ten mills, effectively increasing property taxes by .0238 mills over last year. Although the millage will remain the same, Anderson said the city is required to advertise a tax increase because of a law pushed through the state legislature several years ago by state property appraisers. Anderson also notified the commissioners of the resignation of Belle Glade Public Works Director John Scott, Seattle is the second person to hold the position created by the commission two years ago.

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM NOTICE OF FINDING OF NO SIGNIFICANT EFFECT

Notice is hereby given that the City of Belle Glade, Florida has prepared an environmental review record on the projects hereinafter described and has determined that said projects will have no

significant effect on the quality of the human environment.

Project: PUBLIC IMPROVEMENT, including street widening, resurfacing, curb and gutter and improved street drainage. These activities will take place in Target Area 1, along 7th and 8th Streets between S.W. Avenue E and the canal lying in the right-of-way of S.W. Avenue

G, and on Avenue F between 7th and 8th street.

Project: PUBLIC IMPROVEMENTS (recreation), including remodeling the Lakeshore Civic Center and construction of an adjacent recreation building. provision of recreation facilities on the 10 acre parcel immediately adjacent to the Civic Center, and other recreation improvements to existing parks or land bank properties in Target Areas 1, 2 or 3. The area encompassed within all three "Target Areas" is bounded on the North by West Avenue A, on the South by the canal lying in the right of way of S.W. Avenue G, on the West by the FEC Railroad tracks and S.W. 10th Street, and on the East by S.W. 4th and 6th Streets.

Project: LAND BANK PROGRAM, including purchase, for recreational purposes, of a 10 acre tract adjacent to the present Lakeshore Civic Center. The parcel is bounded on the North by S.W. Avenue E Place, on the South by S.W. Avenue F, on the East by S.W. 11th St. and on the West by S.W. 13th Street. Provision is also made for purchase, or lease of other opportunity purchase parcels in Target Areas 1, 2 or 3.

Project: RELOCATION PROGRAM, providing housing replacement payments to owners of substandard dwellings, that are not economically feasible for rehabilitation, who request assistance for Code Compliance. Expenditures will also be made for expenses incurred for temporary relocation during rehabilitation activity. Program activities are to be primarily in Target Area 1, bounded on the North by S.W. Avenue E, on the South by the canal lying within the unimproved right-of-way of Cambridge and G, along the West by S.W. 10th Street and the East between S.W. 5th and 6th Streets.

Project: HOUSING MAINTENANCE EDUCATION PROGRAM, serving the residents of Target Areas 1, 2 and 3. Classes will be

held to instruct lower income Target Areas households, particularly those receiving housing assistance, in the basics of home care and maintenance.

The finding of no significant effect is based on the following:

While the above PUBLIC IMPROVEMENTS (street and recreation improvements), LAND BANK, RELOCATION, and HOUSING MAINTENANCE EDUCATION PROGRAMS have significant benefits to the immediate neighborhoods and specific residents, the impacts are not considered to be of major significance within the context of the total human environment, in the achievement of local community-wide goals; or in the context of regional, state, HUD or national goals or concerns, considering the scope and scale of proposed activities to be undertaken.

The environmental review records, respecting said projects are available at the Office of City Clerk, City Hall Annex, Belle Glade, Florida, between the hours of 8:00 a.m. and 4:30 p.m. Monday through Friday where the same may be examined and copied. No further environmental review is proposed to be conducted on said projects and the City of Belle Glade, Florida, intends to require the U.S. Department of Housing and Urban Development (HUD) to release fund for said projects.

Comments respecting the environmental impacts of the above described project may be submitted to the City of Belle Glade, City Hall Annex, Belle Glade, Florida, 33130 no later than October 1, 1976.

James W. Hunter

Hunter now Cole branch manager

R. D. Cole, Inc. announced this week the appointment of James W. Hunter as Branch Manager of their Belle Glade office.

Hunter most recently lived in Fort Lauderdale with his wife Mary and their three children Jim, Kathy and Ian, where he operated his own agency.

He is originally from Pensacola, Ohio, a small farming community and is looking forward to his move to the Belle Glade area. Hunter has missed the small town life he grew up with and feels he will be able to resume that kind of life style in Belle Glade.

He comes to R. D. Cole, Inc., with 25 years of experience in the insurance field. A civic minded man, Mr. Hunter has been active in church groups.

He is a charter member of

West Broward Lions Club, a member of B.P.O.E., Free and Accepted Masonic Order, Scottish Rite 32, Valley of Cambridge and was chairman of a non-profit organization to raise funds for the Nova High School swimming pool.

He has also been very active in youth baseball programs for the past 15 years.

Sports

September 16, 1976, 5

**Lake Level
14.65 feet**

Atlantic game is Friday

Raiders lose to North Shore

Central Head Coach Willie McDonald was spending a good part of this week trying to find out what went wrong in the 1976 Raiders' opener against North Shore to come up with a formula for beating Atlantic here Friday night.

While a couple of critical raids were made against the

Raiders in their 15-6 loss to the Mustangs, the Glades Central team also appeared to be flat and unconvincing in their performance in the season opener.

"I don't know what went wrong," McDonald said Monday. "They weren't performing the way they had been in practice. It might have been over-

confidence. I just hope it woke them up. "I didn't feel right about the game," he said. "I couldn't put my finger on any one thing. Where we were supposed to be strong, we fell down. We'd been working on the running attack and that didn't work out. The passing game went all right though."

The Raider coach said he had found some things in the game to be cheerful about, though. He pointed out the running of Donald Robinson, the passing of substitute quarterback Edgar Arnett and end Ollie Shepherd, who caught the pass for the Raiders' sole TD.

The game's first quarter was begun with a typical play as the Raiders kicked

off to the Mustangs and the North Shore runner who received the ball promptly fumbled it.

By the time he picked it up, Raider tacklers were all over him and after three plays failed to bring a first down the Raiders received a punt and ran it back to the North Shore 41 yard line.

On the Raiders' first possession, Eli Martin carried the ball five yards to the Mustang 36. On the next play, the ball was fumbled at the line of scrimmage and North Shore took possession again, but the ball was recovered by a Raider, only to have a punt situation come up two plays later.

The rest of the first quarter was more of the same. North Shore fumbled on the next play at their own 25, only to recover the ball two plays later when the Raiders fumbled the ball back to them.

The second quarter began when the Raiders, on their own 20, were forced to punt. Glades Central punter Ken Neth Funderburk bobbled a had snap from center, picked it up and was sacked on his own 7-yard line by several Mustangs.

Two plays later, the Mustangs drew first blood with a touchdown run from four yards out. The PAT was good and North Shore led 7-0 with 11 minutes left in the half.

On the first play after the kickoff, Raider quarterback Harvey McGriff, who played through most of the game, connected with Ollie Sheppard on a 24-yard pass play to put the Raiders on the North Shore 46-yard line.

After a penalty three Glades Central back to their

own 49, Martin carried the ball back to the Mustang 47 and Jeffrey Henry ran it another three to the Mustang 44 before a McGriff pass was picked off by a Mustang defender on the North Shore 33.

That interception ended the Raiders' first threat of the game and after each team had a couple of chances, the second Glades Central threat was set up when Raider linebacker Rufus Washington recovered a Mustang fumble on the North Shore 33-yard line late in the second quarter.

Two plays later, Robinson picked up a first down by ramming the ball down to the Mustang 22 yard line, only to lose that edge when the Raiders lost ground to the 28 on the next play.

Two plays later, Robinson carried the ball two yards back to the Mustang 26 and McGriff unleashed another pass to Sheppard on the North Shore 10 for 16 yards and the first down and goal to go with only 23 seconds left in the half.

With time running out, Sheppard was nailed on the Mustang 1-yard line on the next play as soon as he took another McGriff pass.

McGriff tried to ram the ball over the goal with a keeper on the next play but a strong Mustang line threw him back to the two, only to have the officials put the ball back on the one foot line on an offside penalty against North Shore.

With six seconds left on the clock, McGriff tried another keeper and actually showed the nose of the ball over the goal line only to find one of the officials had already blown the ball dead.

McGriff had run out the clock with one play left in the series, and although three of the four Glades Central coaches argued with the officials that he had blown a quick whistle, the ruling stood and the Raiders left the field trailing 7-0.

The third quarter got off to much the same type of start as the first, marked by a fumble by North Shore on the Raider 34-yard line and a pass interception thrown by the Mustang quarterback two series later.

When the Mustang pass was picked off on the North Shore 43, the Raiders mounted their first serious threat of the second half, driving on a series of runs and passes to the North Shore 8-yard line, where Robinson carried it on a fourth and four situation, only to lose the ball on downs.

Two series later, North Shore put together a 79-yard drive, largely on the strength of two back-to-back runs by junior Joe Jackson, as he reeled off 28 and 22 yards.

The scoring run came from one yard out and North Shore led the game, 13-0.

The Raider defense smothered the PAT attempt, however, blocking the kick and holding the Mustang lead to 13 with 7:08 left in the final period.

After the kickoff, McDonald put in reserve quarterback Edgar Arnett, who led the Raiders on their sole scoring drive of the night.

After a one-yard run and a penalty on North Shore took the ball out to the Raider 35, Arnett connected on a 16-yard pass to the North Shore 40. Two plays later

four Mustangs poured through the Raider line to sack the junior quarterback seven yards in his own backfield. On the next play, he was sacked again as the North Shore defenders poured through again, putting the Raiders in a fourth down and 24 yard situation.

Arnett connected with Anthony Chapple the next play but the gain was insufficient and the ball went over on downs with 1:15 left to play.

The Raider defense smothered the Mustangs' attack the next three downs and took the ball on the North Shore 34 when the Mustangs punted with 54 seconds left.

Arnett's first long pass was broken up by North Shore defenders but on second down, he found Sheppard on the North Shore 31. Sheppard broke two tackles to run the rest of the way into the end zone standing up.

A two point conversion attempt was smothered by North Shore with 37 seconds left in the game and the score was North Shore 13, Glades Central 6.

An onside kick went out of bounds and after the Mustang quarterback fell on the ball on the next two plays, the North Shore squad didn't even go into the huddle on the third down, choosing instead to help their fans count down the remaining 17 seconds to end the game.

McDonald said Monday the 8 p.m. game at Memorial Stadium Friday night could be critical in deciding how the Raiders will do the rest of the year.

The Raiders have never defeated the Eagles, settling for a tie two years ago and losses last year and three years ago.

IT WAS THAT KIND OF A NIGHT AS JEFFREY HENRY CHASES BALL in the final minutes of the game in a futile effort to put the Raiders on the board

Crissman stars as Gators win opener against King's, 35-6

The King's Academy football team may remember Mitch Crissman as a senior wrecking ball Saturday as he romped six times for 90 yards and three touchdowns on offense, then turned around on defense to recover a King's fumble, and lead the Glades Day Gators in tackles.

And when Crissman wasn't crossing the line, it was quarterback Jorge Echave, who completed three of three passes for 115 yards and a touchdown, then turned around and ran twice for nine more yards and one more touchdown.

By the time the two stopped scoring touchdowns and Kenny Buckner was

satisfied with kicking four of five conversion kicks, the Gators had finished up their opening game for the 1976 season with a 35-6 victory over King's.

Echave's passes were good for one each to Danny Kirchman (68 yards for a TD), Dick Crockett (for 25 yards) and John Scruggs (for 22 yards).

The Gators rushed for a total of 171 yards. Besides Crissman, Dan Kirchman carried the ball ten times for 40 yards. Echave went twice for nine yards and fullback Winston Hyrd backed the line six times for 27 yards.

On defense, Crissman picked up one fumble and led tacklers with 8 tackles and 6 assists, followed by

Kenny Buckner with seven and four, Teddy Caruthers with six and seven and cornerback John L. Rogers wound up the tackles with five and six assists.

The Gator defense stopped King's Academy on two goal line stands and held the other team to 72 yards rushing and 161 yards in the air.

Glades gridders star in Kansas

When The Bethel College Threshers kick off their football season Saturday night in North Newton, Kan. there will be no fewer than six former Glades Central players on the roster, as well as five Pahokee High Alumni.

Former Raider standout Jerry Clark will be one of the starters when the Threshers open their season against the Bethany College Swedes. Clark was an honorable mention as a sophomore halfback last year in the Kansas Collegiate Athletic Council.

Clark, a junior this year, is being joined by sophomores Alexander Brown and Lloyd Hallenden and freshmen Charles Small, Steven Allen and Daniel J. Brown, all former Glades Central players.

Pahokee players in the lineup include juniors Phillip Everett, Jorell Howard and Clifton Brown and sophomores Eugene Bubb and Bobby Helfman.

There are a total of 42 graduates from Florida schools on the team of the Kansas college, out of a total roster of 72 players.

Schroeder Revere??

Assistant Librarians Brenda Jimenez and Janene Gilbert show off part of their act in series of puppet shows coming up next week at the Belle Glade Library. "Happy Birthday to Us" depicts the story of the midnight ride of Paul Revere

as told by his dog, Schroeder. Librarian Leslie Strickland said the show is being put on for any school classes whose teachers wish to see it. She said interested teachers should call the library at 996-3453 to arrange a time to attend.

In Russia a net is thrown over a bride couple because no evil spirit can get at the susceptible pair without first ontying the knots.

Mrs. Farley to chair Breath of Life

Mrs. Gene C. Farley has been appointed Belle Glade Chairman of the Breath of Life Campaign to fight children lung-damaging disease, according to Herman Jones of Jacksonville, Trustee of the Cystic Fibrosis Foundation in Florida.

Mrs. Farley will lead local volunteers in raising funds to support research and care programs for children affected by lung-damaging diseases like cystic fibrosis, severe asthma, chronic bronchitis, and bronchiectasis.

The Breath of Life Campaign will be in October with a door-to-door drive scheduled during October 15-24. Approximately one in every 1,500 babies is born with cystic fibrosis, which is

still incurable. CF is inherited when both parents carry the recessive gene for CF. It is believed that one in 20 persons, or a total of 10 million Americans, is a symptomless carrier of this gene.

Current research funded

by the Cystic Fibrosis Foundation is seeking a practical test to identify these carriers, as well as a cure for CF and better methods of treatment for all lung-damaging diseases.

Because of improved treatment developed through research, many CF patients are now living into their teens and young adulthood. This same treatment is also benefiting and often curing children suffering from other lung-damaging diseases.

Most people do not realize that there are millions of children in the U.S. affected by lung-damaging disease," said Mr. Farley. "For some of these children breathing is a struggle, rather than the natural function we, who are lucky, take for granted."

The Breath of Life Campaign supports not only research, but diagnosis and treatment of children with lung-damaging diseases in 110 CF centers across the country. There are nine of these centers in Florida, which also provide for educational programs and research.

been expanded to 40? When will this go into effect?

ANSWER: The Federal Communications Commission will raise the number of CB radio channels from 23 to 40, effective January 1, 1977. The move is expected to boost sales to 20 million, a gain of 5 million from the current number of sets. Some retailers fear that the channel increase might hurt sales of sets in inventory, but a big boom should follow with wider channel choice for new CBers as well as trade-ins.

tion only allows consumers to withhold payment when neither the merchant nor lender have resolved the problem and all other resolution processes have failed.

Be extremely careful when considering withholding payment on defective merchandise. The Federal Trade Commission rules are still not clear in this area and misconceptions could result in the lender filing suit against you for non-payment.

QUESTION: Is it true that the member of CB radio channels has

2. It applies only to loans arranged by the merchant, with a lender.
3. It does not apply to credit card purchases or loans arranged by the consumer through banks, credit unions or other lending institutions.
If you have purchased defective merchandise, be it product or service, first contact the merchant. If the merchant will not correct the problem, contact the lender, and explain the intent to withhold payment. The lender may be willing to work with the merchant in resolving the problem.
In any event, the regula-

QUESTION: I purchased a new refrigerator from an appliance store in June. Since then the freezer has stopped working three times. The repairmen fix it and it goes out again. I am dissatisfied with the product and have heard that I can stop making payments under the holder-in-due-course regulations. Is this true?
ANSWER: The Federal Trade Commission regulations concerning "holder-in-due-course" went into effect on May 14, 1976. Unfortunately, many misconceptions have resulted and consumers tend to be confused about the intent of the rules.
Consumers cannot necessarily stop making payments on any purchase they have made due to dissatisfaction with the product. The following conditions must exist before action can be taken under the Federal holder-in-due-course doctrine.
1. The merchandise must be purchased on installment credit, after May 14, 1976.

GOLDCOAST GARDENER

BOF
GOLDCOAST GARDENER

This time of year is the time to begin our fall gardens and there are a lot of problems that many people encounter because of their failure to follow a basic guide in setting up a vegetable garden. The first step is to select the proper site. Most vegetables do very poorly in shaded areas and so for best results the garden should always be in a sunny location, preferably all day sun. If you are faced with a choice between morning sun or afternoon sun, morning sun would be better.

Many times we have very heavy dew and it is important that plants dry off as soon as possible to reduce chances of diseases and this is why the morning exposure would usually give you healthier plants with fewer problems than an afternoon exposure. The garden should also be put in a well-drained location since very few vegetables are tolerant of flooded conditions for more than 48 hours. If you are not sure of the drainage you may plant your vegetables on small raised

beds or provide ditching around the perimeter of the garden to drain water away from it in case of sudden thunder storms. Most of our native soils are very low in fertility and so it is advisable that soil amendments such as peat moss, compost, manure or good quality top soil be added to the garden area prior to planting. After soil amendments have been incorporated into the garden area the next step is to treat for nematodes. Nematodes are small, microscopic worms

that inhabit all soils and feed on the roots of plants. Their feeding causes the plant roots to become swollen and nonfunctional. Many times once enough damage has been done the vegetable plant will die or will not produce like it should. There are various brands of nematocides available at your local garden supply stores and these give excellent results when used according to directions. After you have treated your soil for nematodes it is important that you plant varieties of vegetables that

are adapted to local growing conditions. Many times people make the mistake of planting seeds they have obtained from southern areas or areas outside Florida. In many instances these varieties will not produce the same results because in places they were obtained from. The Cooperative Extension Service has a circular called "Vegetable Gardening Guide" which is available from local Extension offices and it contains all the varieties of vegetables which are recommended for local conditions.

This guide also contains planting dates, distances to plant in the rows and length of time from planting harvest of most of the vegetables that can be raised in our area. Seeds of most of these varieties can be obtained from local sources. In addition, many retail outlets also sell plants. Those people who have a very small garden may find it advisable to buy plants rather than to seed a large quantity of seed

and then use only a small portion of them. After the plants have been put in the garden or seeds have been planted, then you have major insect or disease problems to cope with and these vary from location to location and according to prevailing weather conditions. Your local garden supply dealer or retail nurseryman can answer most of your questions about the various problems that you encounter and suggest chemical control for them.

Ruiz, Baez married

Miss Nancy Mirella Ruiz, daughter of Mr. and Mrs. Isidro Praga of 1517 N.W. Ave. G in Belle Glade, became the bride of Juan Jose Baez, son of Mr. and Mrs. Rafael Baez of 318 N.W. 13th St. in Belle Glade, Aug. 6 in a double ring, candlelight ceremony performed by Father Paul Saghy at St. Philip Benizi Catholic Church.

The bride was given in marriage by her uncle, Rigo Ruiz, the bride's brother, served as best man and Magda Rothman, cousin of the bride, was the maid of honor.

Bridesmaids were Maria Infesta, Haby Ruiz, Mary Ruiz, Ana Santana, Lidia Baez and Esther Baez, all of Belle Glade, and Ana Real of West Palm Beach. Junior bridesmaids were Zola M. Ruiz and Maritza Garza, both of Belle Glade.

The flower girl was Isabella Fernandez of Belle Glade and the ring bearer was Emilio Graven of Belle Glade.

Jesus Avila, Jose Avila, Elio Avila, top hats and canes. Ushers were Jose Olavarria, Rusty Nodal, Dionicio Rey, Alberto Ruiz and Arnaldo Morales, all of Belle Glade. The groom, best man and ringbearer were dressed in white. The ushers wore black suits.

The church was decorated with 10 bouquets of white and peach chrysanthemums for the candlelight ceremony.

Helen Miller provided the organ music and Annie Allen was the soloist, also playing music while the bride and groom were exchanging rings.

The bride wore a satin gown trimmed in lace with high neck, long sleeves and a long train. The gown was decorated with pearls. The bride's flowers were a white orchid with white roses and a light pink floor-length dress.

The maid of honor wore a light pink floor-length dress decorated with lace and pearls with a small train. She wore a hat with flowers to the side.

The bridesmaids wore peach color floor-length dresses with short capes decorated with lace and pearls and hats with flowers to the side. The flower girl wore the same type of dress as did the maid of honor.

A reception at the Belle Glade Civic Center followed the ceremony. The bride's cake was a two-tier white cake decorated with a miniature bride a groom a top and a red champagne fountain under the cake.

The bride's mother wore a light blue long dress decorated with pearls on her sleeves and she also wore an orchid.

The bridegroom's mother wore a light pink long dress with lace on her sleeves and an orchid.

Out of town guests were present from Miami, West Palm Beach and Tampa. The couple took a seven day cruise to Puerto Rico and the Virgin Islands for their wedding trip, with the bride wearing a floor length light green dress with the neckline trimmed in lace and a blazer of lace to match. They are now making their home at 124 N.W. 12th Dr.

The bride attended Glades Central High School, graduating in 1976. She was a member of the student council and the Diversified Training Club. The groom attended Glades Central High School, graduating in 1975. He played football from the ninth grade and was a member of the student council. He is currently employed at Vagabond in Ft. Pierce.

The bride is employed at the Clerk's Office at the Glades Office Building.

Wedding plans are announced

Mr. and Mrs. Laurence W. Connell of 749 S.E. First St. announced this week final wedding plans of their daughter, Donna Kay, to James Edward Lovett, son of Mr. and Mrs. James H. Lovett of Summit, Ill. The wedding will take place Saturday at 7:30 p.m. in the First Baptist Church of Belle Glade with the Rev. Robert Atkins officiating.

Serving as matron, of honor will be Lynn Miller of Belle Glade. The maid of honor will be Mary Ethel Brown of Belle Glade.

Mrs. Patricia Connell of West Palm Beach, sister-in-law of the bride-elect, Mrs. Julie Myers of New Augusta, Miss., cousin of the bride-elect and Linda Lovett of Summit, Ill., sister of the groom, will be the bridesmaids.

Fammie Jo Novak of Summit, Ill., Godchild of the groom, will be the junior bridesmaid and Belinda Deas of Macon, Ga., cousin of the bride-elect, will be the flower girl.

Attending the prospective bridegroom will be the best man, Butch Raschke of Palm Springs, cousin of the groom. Groomsmen will be Dennis Connell, brother of the bride-elect, Enrique Torres and Danny Hager of West Palm Beach and Jimmy Brodbeck of Lake Worth. Junior groomsmen will be Bill Cochran of Belle Glade, cousin of the bride-elect.

Jimmie Cochran of Belle Glade, also a cousin of the bride-elect, will be the ringbearer.

Nuptial music will be presented by Dennis Simmons, the organist, and vocal soloist Jimmy Crockett, both of Lake Worth.

Mr. and Mrs. Laurence Connell will host the reception, scheduled to follow the ceremony, will take place at the Belle Glade Elks Lodge.

No formal invitations are being issued locally but all friends and relatives of the couple are invited to attend the wedding and reception.

Garden Study Club begins 1976 season

The Garden Study Club of Belle Glade began its 1976-1977 year with a meeting at Mrs. Ruth Wedgworth's home with Mrs. Thomas L. Swager serving as co-hostess Friday morning.

Mrs. Bobby Steele, vice president, and program chairman, introduced Mrs. Herbert Priest, owner of El-Cetra, who gave a demonstration of macrame. She also told the group about her many other crafts that are available in her shop.

Mrs. Thomas Zitter, president, conducted the business meeting at which time all committee chairman reported. It was announced by Mrs. Karl Larson, awards chairman, that the hibiscus specimen contest was won by the following: first place — Mrs. Pablo Vincent; second place — Mrs. George Suttle; third place — Mrs. Ruth Wedgworth.

Also attending were Mrs. Marlan Chapman, horticulture chairman; Mrs. Charles Trammel, contact chairman; Mrs. Horace Harris, secretary; Mrs. Mary E. Roth and Mrs. John T. Thompson.

And in the arrangement contest, Mrs. Swager took first place with Mrs. Luther Jones in second.

Mrs. Steele revealed her entire program plans for the coming year which generated much excitement and enthusiasm.

Also attending were Mrs. Marlan Chapman, horticulture chairman; Mrs. Charles Trammel, contact chairman; Mrs. Horace Harris, secretary; Mrs. Mary E. Roth and Mrs. John T. Thompson.

Other guests were Mrs. Lane of Jersey City, N.J., Mrs. T. Cook of Titon, Ga., and Mrs. Ira M. Humber. There also were a number of youngsters present, and some of the club members were able to bring their husbands along as guests.

Guest at the picnic was Mrs. Lillie Mae Williams of Tampa, who was the guest of her cousin, Mrs. Gladys Tucker, the president of the club for the past 11 days.

The Violettes Community Club held its annual picnic Saturday at John Stretch Park in Lake Harbor.

Guest at the picnic was Mrs. Lillie Mae Williams of Tampa, who was the guest of her cousin, Mrs. Gladys Tucker, the president of the club for the past 11 days.

Each lady was beautiful with their lovely smiles and they were a bit nervous.

The winners were Brenda Ashley while Sandra Daniels won second, Dorothy Phillips won third and Suefrances was fourth.

Miss Paula Danise Cook, daughter of Mr. and Mrs. John T. Cook of Titon, Ga., will become the bride of Craig Dennis Pate, son of Mr. and Mrs. Stephen C. Pate of 1508 E. Canal St. South, in a ceremony to be performed at 2 p.m. Saturday at the Coffin's, Preswitt Baptist Church in Brookfield, Ga.

All friends and relatives are invited to attend the wedding and reception which follows in the church social hall.

Social Chatter by Maude Vereen

Happy news for me! My Carl W. Vereen, who has been stationed in any for the past six years, is back in the States and informed me that he hopes to be home today. Thank those of you who have prayed for him.

The Mr. Zion A.M.E. Church members climaxed a beautiful appreciation for their pastor, the Rev. Charles Robinson, Sunday. The Rev. Elkin Serach of Ebenezer Mission Church in Nassau in the Bahamas brought the morning message, taken from St. John 16: "There was a man sent from God named John."

Rev. Serach was accompanied by Freeman McPhee, a former member of this great church.

At 4 p.m., the Rev. Rodney McIntosh of St. Andrew's A.M.E., Rev. W. P. Sanders pastor, was accompanied by the Community Gospel Choir of Jacksonville Beach. And they did sing! It is such a great joy to see young people serving the Lord.

Rev. McIntosh brought the message, "LSD vs Jesus." Everyone was prepared for the same old story but he fooled us and captivated people by explaining what LSD meant.

Lonnie-Satan Devil vs Jesus, three against one. When he got in the middle of his sermon, everyone seemed to be on one accord. The members of the choir from Jacksonville Beach were Lillie Thomas, Reba Davis, Gwen Williams, Joy Odum, Roxie Kirkland, Cheryl Little, Vincent Sims, Leslie.

Each lady was beautiful with their lovely smiles and they were a bit nervous.

The winners were Brenda Ashley while Sandra Daniels won second, Dorothy Phillips won third and Suefrances was fourth.

HOW TO INCREASE SUCROSE LEVELS IN YOUR SUGAR CANE. WITHOUT AFFECTING CANE TONNAGE.

You can do it with Polaris® Plant Growth Regulator by Monsanto, the chemical that ripens sugar cane.

Through extensive field trials, Monsanto has proven that, under poor ripening conditions, cane treated with Polaris can yield more sucrose at harvest than untreated cane.

Polaris not only helps overcome poor ripening conditions caused by warm, wet weather. It does not significantly affect cane tonnage. Monsanto has kept precise TCA records on trials since 1972. Result: The difference in TCA between the plots treated with Polaris and the untreated plots was insignificant.

Find out more about Polaris, the plant growth regulator that ripens sugar cane and helps increase sucrose, despite warm, wet weather. Without significantly affecting tonnage. Contact your Monsanto representative or the distributor for Polaris in your area for the full details.

As with all agricultural products, read and follow the Polaris label.

Farmfest in full swing

Farmfest '76, the nation's largest biennial salute to agriculture, is under way this week in Lake Crystal, Minn. It is the largest such event in scope, size and attendance in history, according to the people who put it together.

The celebration of agriculture is rich in historical background and pageantry and will be long remembered for its scientific and educational value.

Farmfest's exhibit sales are in a sell-out, after the original area was expanded in size following an initial sell-out. It includes 120 acres of commercial agricultural exhibits, a 75-passenger working steam train, an ultramodern grain and feed demonstration and the world's largest collection of antique agricultural equipment.

Among other features Farmfest '76 are a national horse plowing contest and unprecedented 40 horse single-bitch cat jiltin, the 20th world chariotship tractor pull and a 1000-ton steam train. The Antique Auto Club of America is having a car and truck show, and another feature is a replica of an Indian farming village from the pre-Columbian times.

Women's activities recognize the importance of the farm wife as homemaker, family reader and farm partner. Exhibits and seminars are being held in the Women's Center.

Daily entertainment programs feature such stars as Roy Clark, The Nashville Brass, Glen Campbell, Loretta Lynn, Mel Tillis, John Davidson and Bobby Vinton. Stage shows are free to the visitors in an outdoor amphitheater.

Daily schedules include a horse show, field demonstrations or harvesting of crops grown especially for the festival and a special salute to our land grant colleges. Vocational and trade schools also are presenting special programs.

Farmfest '76, from everything we here in Florida have been told, is a most worthwhile undertaking. It is an official project of the National Future Farmers of America organization and I hope some permanent part of it can be retained.

Florida Sugar Cane League aids research

A part of the Florida Sugar Cane League's ongoing program supporting sugarcane research, two employees are provided to

the USDA Station at Canal Point. Dow McClelland and Wayne Jarriel are employed by the League and work in conjunction with USDA.

Wayne Jarriel, from Sandcut, provides assistance to Ed Rice. Wayne has served in the U.S. Marine Corps for two years and prior to his military service, was employed directly by the facility.

Most of his work is on experimental cane planted on land set aside for that purpose by sugarcane growers. Samples are taken from each plot for scientific analysis. Much of Wayne's job involves record keeping and computations across all the areas of analysis.

Dow McClelland assists Dr. Paul Lyrene and is also involved in the variety development program. Dow has been at the Canal Point station for 14 years and has worked for the Sugar Cane Growers Cooperative of Florida as a foreman.

Some previous medical laboratory experience has come in handy, as he spends a good part of his time in laboratory analysis.

Boy Scouts to hold meeting tonight

The Glades District Committee of the Gulf Stream Council, Boy Scouts of America will hold a meeting at 7:30 p.m. tonight at the Belle Glade National Guard Armory.

Glades District Executive Director John Cowart said the National Guard Sgt. Tom Pearson has been named the committee chairman for the

rest of this year and next year. Cowart said Pearson is right now the only such officer and he is looking for volunteers to fill out the district committee. He invited anyone wishing to work with scouts in the National Guard Sgt. Tom Pearson has been named the committee chairman for the

Burton completes ROTC training course at Fort Knox

Fort Knox, Ky. (AHTN) Sept. 21—Cadet Larry Burton,

Sugar

Unexpected offerings of sugar in the world market and larger than expected tenders kept board prices on the defensive. Large increases in world cane sugar output for 1976-77 may add up to 3 million tons, depending on beet production, to world carryover stocks from the 1975-76 season. With such a large buildup in world reserves, bull market possibilities appear remote at present unless producer countries can develop new international sugar agreements in the hope of shoring up prices. Though historical lows appear cheap, after considering the "relatively" high prices of recent years, they are not unattainable. But we would not suspect values to fall too much below the average world cost of production which has been generally estimated at about 10-12 cents/lb. The trend is down and we expect rallies to encounter resistance 1200-13.00 cents/lb. basis March.

Soybean Complex

The USDA crop production report will be released on Friday September 10th, and it should give us the answer to a very erratic August weather pattern which favored some areas of the corn and bean belt while contributing to deterioration of the crop in others. As a result, the market was anticipating a reduction of anywhere from 20 million to perhaps 100 million bushels below the August estimate of 1.344 billion bushels. Judging from comments we have heard, the larger reduction represents an extreme. Despite some semi-official comments which suggested that the soybean outlook might well fall close to or below 1.3 billion bushels, those who are bearishly inclined persisted in their negative view towards the price outlook by arguing that falling demand would ultimately deflate the bull argument. Nevertheless, the soybean complex remained very much alive in the week under review as new highs for the recovery move were scored in soybean oil, soybeans, and forward months of meal. Contrary to rumor, the wheat director in Brazil announced that soybean trading for this year is effectively closed since export quotas of beans in bean form, meal and oil, set at the beginning of this year's trading, have been almost fulfilled. Here, too, bears chose to play down the news suggesting, instead, that Brazil may become a seller at a later date. We continue to feel that the fundamentals in the soybean complex favor the long. For the moment, technical considerations remain positive and we see no reason to alter our bullish opinion. Thus, we would remain long March

soybeans from 6.60, December soybean oil from 21.00, and December soybean meal from 188.00 as previously advised.

Corn

The National Corn Growers Association estimated the crop at slightly below 5.6 billion bushels, and while most observers, including many who are bullishly inclined, considered the estimate an exaggeration on this low side, it nevertheless provided the market with a psychological edge sufficient to mount overhanging resistance and test the area of contract highs. The reduction of almost 600 million bushels from the USDA's August forecast was extreme as far as many traders were concerned, but it supplied food for thought, for even a reduction of one half that amount would shift the corn statistics to a rather tight balance. Given an unfavorable September growing period, an early freeze, or another large export order, and the supply and demand situation would be much too close for comfort. The complacency of the bears would be thus shaken and corn, too, seemed ready to join the soybean complex with an upside breakout which could well take futures to the 3.25 area basis December. With both fundamental news and technical action favoring the longs this past week we see no reason to alter our bullish view and would thus remain long December from 2.68 to 2.74 as previously suggested.

Meat Markets

Labor problems are impacting more on pork prices than beef as live hog prices were pressured when marketings increased to beat a possible cutters strike and demand weakened as some plants closed. Since the majority of packing firms continue operations slaughter was large and for the week ended 9/4/76 it was up 33% from year earlier levels. Futures discount to cash makes the market adequately priced at present but \$3.00 bushels corn could reduce increases in farrowing expectations and increase near term marketings. Cattle futures held in a narrow range as the futures premium to cash limits demand and anticipation of improvement stifles selling. Live weights have fallen moderately but slaughter is 12% above last year and beef production up 12% from a year ago for the week ended 9/4/76. A significant tightening of supply is not believed for some time as cow slaughter remains a large percentage of the total and grass fed cattle are expected to increase. We would go short December live cattle and December live hogs on contract lows which would be below 41.85 for cattle and 36.07 for hogs utilizing 150 point stop protection from point of entry.

GIFT OF KNOWLEDGE
Schoolltime has rolled around again, and it is time to resume the never-ending process of learning. How lucky we are to live in a country where our children can receive the mighty gift of knowledge. Through their studies, they will learn what a great and powerful nation we are as inheritors of their heritage. As they learn the problems that have been conquered in the past, they will be better equipped to solve the problems of the future.

GLADES CHURCH NEWS

THE HERALD WELCOMES NEWS ITEMS FROM YOUR CHURCH EACH WEEK.
CALL 996-2056 NOT LATER THAN TUESDAY NOON FOR PUBLICATION THURSDAY.

Services held for local businessman, Ercel F. Mixon

Funeral services for Ercel Forrest Mixon, a 25-year resident of Belle Glade who had owned and operated Mixon Funeral Home since 1960, were held Saturday at 10 a.m. at the First Baptist Church of Belle Glade with the Rev. Robert Atkins of that church and the Rev. Mark O'Farrell of the Christian Missionary

Alliance Church of Belle Glade presiding. Mixon was a native of Ocala and began his career at the age of 16 when he was employed at Sam Pyles Funeral Home there. He died at his home at 2208 E. Canal St.

Besides owning Mixon Funeral Home, he was also president of I.D. Walker &

Sons, a local produce brokerage operation. A veteran of the U.S. Navy in World War II, he was a member of the American Legion Post 20. He served as exalted ruler of Elks Lodge 1716 and past president of the local Rotary Club. He was a member of the Masonic Lodge 273, Scottish Rite Masonic Lodge for 32nd degree Masons of Lake Worth and the Blue Lodge of Ocala.

A member of the First Baptist Church of Belle Glade, he also served eight years as the Port Mayaca Cemetery Board, was a member of the board of directors of the Belle Glade Chamber of Commerce and served on the Canal Hazards Safety Committee.

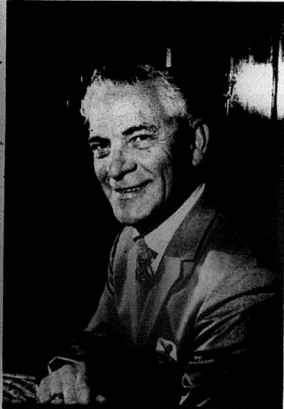

He is survived by his widow, Alice; a daughter, Sherry Barnes, whose husband Dudley, is a partner of Mixon Funeral Home; his mother-in-law, Mrs. I. D. Walker; three grandchildren, Christa, Nickie and Candy Barnes; a twin brother, Aurice L. Mixon of Ocala; two sisters, Myrtle Evans and Mary John, both

of Belle Glade. A fund has been started to build a living memorial in the form of a prayer altar at the First Baptist Church in his memory. Anyone wishing to participate in this memorial may do so by calling the church office.

At the funeral service, Mrs. Helen Youngblood and Mrs. Pat Stedham provided a musical program.

Active pallbearers were D. Allen McLeod, Earl Lindrose, C. R. Wetherington, Leonard Case, Louise Andrews and Douglas Thompson.

The funeral services were conducted by Mixon Funeral Home under the direction of Dudley Barnes and Nick Walker. Mixon's nephew and a funeral director associated with Kraer Funeral Home in Boca Raton, Fla., assisted. Wayne Luce of Mixon Funeral Home, Leon Warren, a former member of the staff, now residing in Williston and four funeral directors of Kraer Funeral Home of Pompano, Fla., assisted. Burial was at Foreverglades Mausoleum.

Card of Thanks

"We would like to thank each of you who visited, prepared, delicious meals, sent cards, flowers and donations to the living memorial, telephone calls and prayers for us during the illness and death of our loved one, Ercel Mixon."

"We know how each of you felt about this dear man and

how many lives he tenderly touched. Each of you are precious to us, as you were to him, and we praise God for your love for Ercel, so overwhelmingly displayed these past days."

Alice, Sherry, Dudley and all our family.

Altar Society met

The members of St. Mary's Altar Society held their first meeting of the season on Sept. 7 at the home of Edith Mudekci at 208 Parkview Court in Phoebe.

The meeting was opened with a prayer. Secretary Edith Fanjul has moved from this area and Madeline Almas was elected new secretary.

Plans were discussed for

the annual Cuban Dinner Dance to be held Oct. 9 at the Elks Lodge 1716 in Belle Glade. Music will be by the Reflections and tickets are available from any member of the society or at the Elks Lodge.

The meeting was adjourned with a meeting and prayer by Father Clements. Refreshments were served by the hostess and a social was held.

Funeral services were held for Mrs. Gaynell Hadidon, a seven-year resident of the Glades, Friday at the Mixon Funeral Home Chapel with the Rev. Robert Atkins officiating.

Mrs. Hadidon lived at Henderson's Trailer Park in South Bay. She was survived by her husband, George Hadidon, and employee of Richmond Company.

Besides her husband, survivors included six sons, Kenneth Johnston and Paul Hadidon, both of South Bay,

Teddy Johnston, of Shelby, N.C.; Johnny Johnston of Sacramento, Cal.; Robert Johnston of Sigman, Ariz. and Jack Johnston of Aniston, Ala.; two sisters, Mrs. Lily Pratt of Tiffin, Ohio and Mrs. Jaye Johnston of Saltspring, Ariz. and six grandchildren.

Pallbearers were the sons of the late Mrs. Hadidon. Burial was conducted at the Port Mayaca Cemetery in Martin County. Mixon Funeral Home was in charge of the arrangements.

Services held for Hall infant

Funeral services for Dennis Vincent Hall, two-month old son of Sgt. Dennis and Shirley Hall, were held at the Mixon Funeral Home Chapel Monday with the Rev. Mark O'Farrell officiating. Sgt. Hall lived at 642 S.E. Fifth St. in Belle Glade prior to entering the U.S. Marine Corps.

The infant is survived by his parents; grandparents, Mr. and Mrs. Charles Kowalski of Belle Glade and great-grandparents, Mr. and Mrs. Harry Sweet, also of Belle Glade. Burial was conducted at the Port Mayaca Cemetery in the babyland plot.

My New Day

*This sunrise is created by Thee, O Lord,
With the sky all rise and gold,
Hails a bright new day never lived before,
A day only one hour old;
With its golden hours untarnished,
Tis a treasure-trove for me;
A day to live and love and serve,
A gift to return to Thee.*

Q. Do oil companies search for other sources of energy, such as uranium?

A. Yes, they do. By 1981, when large-scale commercial production is planned, Gulf Oil expects that its Mt. Taylor uranium project in New Mexico will be the nation's largest uranium mine. But it costs money to look for new energy sources. Total cost for the project is estimated at more than \$300 million.

The major U.S. city with the highest recorded annual low their jobs in those states, temperature is Honolulu, a Washington state consultant Hawaii, which averages has estimated.

Proposed nuclear plant initiatives in Washington and Oregon, if passed, could cause 331,000 industrial workers to lose their jobs in those states, a Washington state consultant Hawaii, which averages has estimated.

The average American hen lays 217 eggs a year—versus 203 for the average British hen!

Proposed nuclear plant initiatives in Washington and Oregon, if passed, could cause 331,000 industrial workers to lose their jobs in those states, a Washington state consultant Hawaii, which averages has estimated.

Select Strawberries Wisely

FRESH SHORTCAKES
1-3/4 cups unflavored cake flour
1/4 cup sugar
3 teaspoons double-setting baking powder
3/4 teaspoon salt
1/2 cup shortening
1/4 cup milk
1 egg, well beaten
1 tablespoon grated orange rind (optional)

Melted butter or margarine
1 envelope whipped topping mix
1 quart fresh strawberries, sliced and sweetened

Mix flour with sugar, baking powder, and salt. Cut in shortening. Combine milk and egg. Add to flour mixture with rind; stir until soft dough is formed. Place on lightly floured board and knead 20 times. Roll or pat 1/4-inch thick, and cut with floured 3-inch biscuit cutter.

ter. Place half the circles on ungreased baking sheet and brush with melted butter. Top with remaining circles; brush with butter. Bake at 425° for 10 to 12 minutes or until golden brown.

Separate halves of shortcakes while still warm. Prepare whipped topping mix as directed on package. Fill and top shortcakes with strawberries and whipped topping, allowing about 1/3 cup strawberries and 1/4 cup whipped topping for each. Makes 6 shortcakes.
